## WORK EXPERIENCE

### STORE PLANNER

Albertsons Companies - Boise, ID      2024 - Present

- Create detailed floor plans for remodels, new stores, and small-scale projects using AutoCAD and Revit.
- Use store-specific data including demographics, sales volume, category performance, and market trends to inform design decisions and optimize store layouts.
- Develop layouts that support merchandising strategies, operational needs, and customer experience goals.
- Collaborate closely with division teams to align on project requirements, timelines, and design solutions.
- Actively participate in company-sponsored events and volunteer programs to represent and support the Albertsons brand.

### DESIGN ASSISTANT

Monica Hart Interior Design - West Fargo, ND      2021-2024

- Sole assistant to individual owner-operator of the interior design business.
- Draft floor plans, elevations, sections and other relevant drawings for client projects using AutoCAD.
- Meet with reps and other design professionals to discuss product options that fit the needs of clients.
- Provide assistance in choosing furniture, fixtures, and equipment before, during, and after client meetings.

### INTERN

Carton Interiors - Dublin, Ireland      SUMMER 2023

- Create 3D renderings for client projects using SketchUp.
- Produce concept and material boards that accurately portray design solutions to the client.
- Complete projects using the metric system.
- Organize the material library and become familiar with European products, materials, and manufacturers.
